

PRODERPHARMACARE

Sanit®

# CREAM

ANTISEPTIC HYDROALCOHOLIC GEL  
FOR HEALTHY SKIN

It's a no-rinsing hand disinfectant antiseptic with yeasticidal, bactericidal, mycobactericidal and virucidal efficacy (pseudorabies - coronavirus). Its formula contains a mixture of propan-1-ol and propan-2-ol higher than 80 % v/v and urea which protects and moisturises the skin, even with continuous applications. It's designed to all those places where it is necessary to reduce the risk of nosocomial infection.

## APPLICATION AREAS

It's recommended for healthcare professionals and users who require high-level antiseptic conditions.

Designed for hand disinfection in healthcare areas, medical centres, clinics, veterinary clinics, surgeries.

It is suitable for use in town halls, sports centres, offices and all kinds of public facilities where it is necessary to prevent the spread of germs.

## COMPOSITION

30 % propan-1-ol ; 45 % propan-2-ol.

FEATURES	GAINS
Contains urea	The product increases the water content of the epidermis and acts as a moisturiser, preventing loss of skin suppleness.
Fragrance and dye free	Contains no added substances that may interfere with or contaminate manufactured products. It avoids the allergenic sensitivity of these components in people with atopic skin.
Broad spectrum disinfection	Effective against large pathogenic microorganisms broad, such as yeasts, gram+/gram- bacteria, mycobacteria and viruses.
Quick action	The product spreads and absorbs quickly and is effective against 99.999% of germs and bacteria in 30 seconds.
No rinsing required	Dries quickly on hands without the need to rinse the product with water. Designed for use in areas where there is no water point nearby.
Compatible with gloves	It may be used on the hands before wearing latex or nitrile gloves.
Gel format	As it is a gel product, it does not drip or splash, thus avoiding unwanted stains on fabrics and surfaces.
AIRLESS System	Bottle with a product system protection from external contamination.
