

Sanit[®] SCRUB

HEALTHY SKIN ANTISEPTIC

Antiseptic for healthy skin hygienic and surgical washing in the healthcare field. The product meets bactericidal and yeasticidal efficacy with rapid biocidal action for hygiene washing and pre-surgical disinfection of professional healthcare personnel's hands. The emollient system of its formulation improves the tolerance of the product even with the most sensitive skin. Also, its neutral pH keeps undamaged the skin's acid mantle.

APPLICATION AREAS

It's recommended for hand hygiene and disinfection of professional staff in high-risk services and areas where a maximum level of disinfection is required. Product designed for antiseptic hand washing of professional staff in direct patient care. In treatment and ICU areas, isolation and infectious disease units. Veterinary, dental and aesthetic clinics.

PHYSICO-CHEMICAL CHARACTERISTICS

APPEARANCE:	LIQUID
COLOUR:	REDDISH
ODOUR:	CHARACTERISTIC
DENSITY (g/ml):	1.01±0.02
pH:	5.5±0.5

UNE-EN 13727 Bactericidal in the medical field.

COMPOSITION

4 g of chlorhexidine digluconate (20 g of 20% chlorhexidine digluconate solution) per 100 g of product.
 2-propanol, dodecylmethylamine oxide.

FEATURES	GAINS
Contains glycerine	Lipid component with high occlusive hydration (protects the skin from aggressions and dryness), emollient and moisturising (provides softness to the skin).
Emollient system	Emollients are the first line of protection for pathologies that affect skin hydration, such as atopic dermatitis.
Broad spectrum disinfection	Effective against a large broad of pathogenic microorganisms such as yeasts, gram+/gram- bacteria, mycobacteria and viruses.
Quick action	The product spreads and absorbs quickly and is effective against 99.999% of germs and bacteria in 30 seconds.
Contains Chlorhexidine Digluconate	It contains 4% Chlorhexidine Digluconate which prevents the proliferation of microorganisms and eliminates bacteria on the skin during hand hygiene.
Foam presentation	Provides total control over product consumption, preventing dripping and splashing associated with liquid products.
Neutral pH	Product with pH 5.5 to activate barrier restoration and maintain the skin's acid mantle, providing a healthy, hydrated and supple dermis.
AIRLESS System	Bottle with a product system protection from external contamination.

APPROVED PRODUCT
