

Proset®

# HA PLUS

FOOD INDUSTRY GEL

Hand gel formulated for routine hygienic hand washing of professionals in the food industry. Due to its balanced combination of surfactants and softening agents, provides a high cleaning performance and absorbs food odours impregnated on the skin while protecting the skin from irritation or eczema during frequent use. Free of perfumes, colourants and silicones, it is suitable for all skin types in environments where food is to be prepared, served or consumed.

## APPLICATION AREAS

It's recommended for professional staff in the meat industry (slaughterhouses, cutting plants, butchers), dairies and dairies, livestock facilities, canneries, fish industry, pre-cooking, ovens and bakeries, industrial kitchens, catterring and restaurants, as well as any other food and beverage industry where regular hand hygiene is required.

## PHYSICO-CHEMICAL CHARACTERISTICS

APPEARANCE:	GEL
COLOUR:	COLOURLESS
ODOUR:	ODOURLESS
DENSITY (g/ml):	1.02±0.02
pH:	6±0.5
VISCOSITY (cP):	2500±750

Soiling level  
 1 2 3 4 5

## DIRECTIONS FOR USE

Apply using a PGS® 2000 wall dispenser or PGS® 4000 wall support. Add a dose of the product to the palm with a bit of water. Rub both hands together according to the hygienic hand-washing methodology. In the end, rinse with water until the product remains are removed and dry. Repeat the operation when hands are visibly dirty.

## COMPOSITION

INGREDIENTS: AQUA (WATER), SODIUM LAURETH SULFATE, SODIUM CHLORIDE, COCAMIDE DEA, PHENOXYETHANOL, SODIUM COCOAMPHOACETATE, PROPYLENE GLYCOL, CHLORPHENESIN, CITRIC ACID, ZINC RICINOLEATE, ARGININE, GLYCERIN.

FEATURES	GAINS
Odour absorber	Eliminates and absorbs all kinds of food odours impregnated in the skin.
Contains glycerine	Lipid component with high occlusive hydration (protects the skin from aggressions and dryness), emollient and moisturising (provides softness to the skin).
Fragrance and dye free	Contains no added substances that may interfere with or contaminate manufactured products. It avoids the allergenic sensitivity of these components in people with atopic skin.
Designed for food environment	The product formulation avoids contamination during food handling processes and adverse toxicological effects.
Silicone-free	The silicones produce a barrier that hinders skin moisturisation and retains traces of oils, dead skin and bacteria that can cause skin problems with continued use.
Compatible with hydroalcoholic disinfectants	The product can be used after hand disinfection with alcohol-based products in areas where hand disinfection protocols are required.
Physiological pH	The product has a pH between 4 and 6 to keep the skin healthy, moisturised and supple.
AIRLESS System	Bottle with a product system protection from external contamination.

## SUITABLE FOR USE IN FOOD HANDLING

Proset® HA PLUS does not alter the quality and safety of food. The product accomplished with HACCP food safety protocols:

### 1. Impact on food odour and taste.

Formulation tested according to the standard 'Sensory analysis - Methodology - Triangle test (ISO 4120:2021), which demonstrates the food safety of the product.

### 2. Potential toxicity of ingredients.

The oral toxicity assessment concludes that harmful contamination with possible traces of the product in food is unlikely while preserving the organoleptic properties of the food.

### 3. Food-borne diseases (FBD).

Hands are one of the main routes of germ transmission. Regular personal hygiene with Proset® HA PLUS with the Good Agricultural Practices (GAP) and Good Manufacturing Practices (GMP) prevents cross-contamination throughout the food chain and ensures food safety.

## EXPIRATION

Proset® HA PLUS has a shelf life of 18 months after opening.

## LEGAL PROVISIONS

Proset® products are manufactured according to Good Manufacturing Practice for Cosmetic Products (GMP) requirements. The raw materials used undergo quality control processes before use. In addition, our products have intensive quality tests before being delivered to the customer.

Proset® HA PLUS is a cosmetic product regulated according to EC regulation 1223/2009.
