

Sanit®

FOAM CLEAN PLUS

TOTAL HYGIENE SOAP SOLUTION

It's a suitable foam soap for personnel and users who require highly hygienic conditions. It has a protective effect due to 0.3% chlorhexidine digluconate in the composition. Due to its neutral pH, the product keeps the skin acid mantle intact even with continuous application. Designed product for the application with patented **PGS® Systems** dosing equipment that guarantees maximum cost-effectiveness and efficiency.

APPLICATION AREAS

Product recommended for professional staff and users who require high skin hygiene conditions. Designed for frequent use in sanitary fields such as health centres, primary medical care centres, dispensaries, nursing homes, day centres, geriatric residences, clinical and pharmaceutical laboratories, and dental, gynaecological and ophthalmological clinics, among others.
