FEATURES	GAINS
Contains glycerine	Lipid component with high occlusive hydration (protects the skin from aggressions and dryness), emollient and moisturising (provides softness to the skin).
Contains urea	The product increases the water content of the epidermis and acts as a moisturiser, preventing loss of skin suppleness.
Emollient system	Emollients are the first line of protection for pathologies that affect skin hydration, such as atopic dermatitis.
Designed for rooms	Specially designed for hotels, flats, gyms, spas, campsites, residences, and all types of rooms focused on user well-being.
Contains Aloe vera	A substance that keeps the skin in good condition and stimulates cell regeneration and hydration of the skin.
Invigorating effect	It produces a sensation of softness, smoothness and well-being in the skin.
Neutral pH	Product with pH 5.5 to activate barrier restoration and maintain the skin's acid mantle, providing a healthy, hydrated and supple dermis.
